

Introducing the most popular family of pour over brewers.

The AK Series offers both a heat pump model (AKH) and the traditional displacement tank system (AK).

## AK SERIES BREWER MODEL AK TC

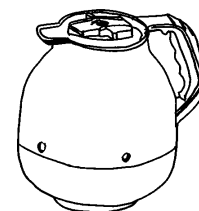

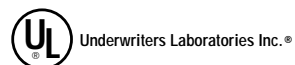

# NEWCO

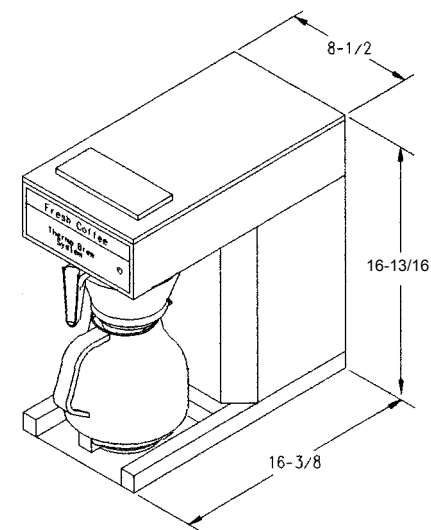

## AK SERIES BREWER MODEL AK TC

The next dimension in pour over brewers.

- Carafe model features “safe base”. A revolutionary design in these bases allow for the lining up of thermal servers “every time”.
- Thermal carafe available in different colors.
- Optional prism available on thermal carafe with new volume indicator and temperature sensor.
- Ready light incorporated for optimum brewing temperature. (AK models only)
- Master power switch.
