Just a few examples of the range of WaterCare solutions we can provide you with...

Let us know which filtration system you need

We will bundle it for you!

Brushed Chrome Finish
Part # CT

Brushed Nickel Finish
Part # CTN

New Products

FEATURE SHEET

Anodized Aluminum – An Industry First!

We are the proud to be the first manufacturer to be using “Anodized” aluminum in our water coolers.

Durability – anodizing is a reacted finish that is integrated with the underlying aluminum for total bonding and unmatched adhesion.

Color Stability – Exterior anodic coatings provide good stability to ultraviolet rays, do not chip or peel.

Ease of Maintenance – Scars and wear and tear from handling and installation or frequent surface cleaning are virtually non-existent. Rinsing with mild soap or water is all that is required to restore the surface to its original appearance.

Cooler Capacity

Ambient Temp. Cel/Fah.	Water 10 deg. C (50 deg. F) LPH / GPH	Cups/hour 85 g. (3 oz.)	Cool & Cold LPH / GPH	Water 10 deg. C (50 deg. F) LPH / GPH	Cups/Hour 85 g. (3 oz.)	Water 74 deg. C (165 deg. F) LPH / GPH	Cups/Hour 170 g. (6 oz.)
21 / 70	6.7 / 1.8	79	18 / 5	3.8 / 1.0	45	7.7 / 2.0	45
27 / 80	4.7 / 1.2	55	18 / 5	1.8 / 0.5	21	8.0 / 2.1	47
32 / 90	2.6 / 0.7	31	18 / 5	1.1 / 0.3	13	8.5 / 2.2	50
38 / 100	1.8 / 0.5	21	18 / 5	0.7 / 0.2	8	9.4 / 2.5	55

Voltage: 120 V AC – 60 Hz / Power Cord: 1.8 m / 6 ft.

Note: The Counter Top Cooler is made up of two components; the cooler and then your choice of water filtration system.

We can bundle any combination that you would like!
